Asaf Yahalom

SOFTWARE DEVELOPER

Givat Shmuel | 054.323.1654 | asafya007@gmail.com

Profile

Software Developer with 2+ years of hands-on experience designing and deploying data transfer and automation systems with a strong focus on clean, maintainable, and scalable code.

Expertise in **Python**, **Microservices**, **NiFi**, **Elasticsearch**, and working in cloud environments (**AWS**, **Azure**).

Experience in deploying complex systems utilizing **Docker**, **Docker Compose** and **CI/CD automations**.

Student of Literature and Judaic Studies, The Open University of Israel – President's Award for Academic Excellence, 2025.

Experience

Israel Defense Forces | Full Stack Developer **2023-2025**

- Designed, implemented and deployed complex **data pipelines** supporting real-time production intelligence systems.
- Designed, implemented and deployed **software systems** which automated deployment and duplication of data pipelines, transferring millions of files daily.
- Designed and developed software components for **Serverless Compute Services**, which enabled real-time and cost-effective **data transference** between **cloud** and **on-prem** environments.
- Created real-time monitoring consolidating metrics from **multiple subsystems** to provide a unified, comprehensive view of system health and behavior – both system-level and file-level.

Education

Israel Defense Forces, Full Stack Development Course **2023**

Skills & abilities

- **Languages & Frameworks**: Python, OOP. Microservices, C#, Typescript, NiFi
- **Monitoring & Observability**: Kibana, Grafana, Elasticsearch
- **Cloud & DevOps**: AWS, Azure, Docker, CI/CD (GitHub/GitLab actions)
- **Core Skills**: Scalable and Maintainable Backend Architecture, System Design, Automating Deployment Processes
